## Why order a C-Tech Mast through QuantumSails Potsdam?

Quantum Sails Potsdam has a large database of bend numbers that suit different weights of sailors and styles of sailing. Our special relationship with C-Tech ensures the sailor gets the best possible mast for them. We have been working on the perfect rig since 2003 and are proud to have made the last three world championship winning sails for C-Tech masts.

We are experienced at coordinating the transport and import into the EU.

## Order procedure

Contact QuantumSails Potsdam and tell us what you are after.

You get a payment instruction form for C-Tech (mast) and an invoice for your new QuantumSail. Each mast and freight to EU is paid for by its new owner directly to C-Tech (bank transfer or credit card). Your credit card may be charged 50% on order and the balance on completion.

Attention: The mast prices and delivery costs depend on the nz\$-exchange rate to your currency!

Import costs (19% EU tax plus harbour fees, handling etc.) are paid locally.

Masts will be sent in a packet of at least 5. Delivery time is usually between 10 and 12 weeks from ordering.

Urgent individual mast/sail orders are possible, however freight costs for 1 mast are the same as for 5.

Delivery can be arranged to various ports within EU.

The sail is made after we have the final bend numbers from C-Tech and will be ready when the mast is delivered. It costs 850 € inkl. 19% VAT
